Initiative Number: 2 **Title:** 2. Quality Academic Programs

Initiative Percentage: 

Description: Academic programs engage students in a teaching and learning covenant of knowledge and values derived from the mission and goals of the institution and tenets of different fields of study. Faculty dedication to this philosophy qualifies them as members of the Troy University corps of instruction. The hallmark of this corps is teaching excellence. Troy University and its faculty are focused on continuous quality improvement of each program and academic support service. Over the next five years, attention will be paid to enhancing teaching effectiveness, strengthening current programs, and building new programs to meet the need of a diverse and growing student population. By 2010 Troy University will be known nationwide as a center of teaching excellence with programs of distinction in each of its academic colleges. To make this happen, the following strategic objectives must be addressed.
