BACHELOR OF SCIENCE IN COMPUTER SCIENCE

It is a smart choice for a career. Computer science jobs are plentiful, pay well, and the demand for them is forecasted to continue growing at a fast pace. Troy University can prepare you for an exciting, rewarding career in computers. The Fort Benning/Columbus Site offers computer science courses leading to a B.S. degree. Students may take courses in class, online, or a mixture of both. For students who prefer the convenience of online courses, but need some in class instruction, we offer special classes where the entire course is available online and supplemented by in class sessions to give you the instructional edge you need.

MASTER OF SCIENCE IN SPORT AND FITNESS MANAGEMENT

TROY’s M.S. in Sport and Fitness Management prepares students to function in a range of exciting managerial roles, such as school coaching at all levels from elementary to college, sport consulting, pro and semi-pro sports team administration, fitness/wellness program management, resort recreation and many other possibilities in the educational, commercial and private sectors of the sport and fitness world.

Courses will be taught at TROY’s new classroom complex in the North Columbus Business Park located conveniently at 506 Manchester Expressway, Suite B-16. Troy University specializes in flexible class schedules for the working adult.
