Can a virtual classroom deliver the same high-quality education as a traditional classroom? Through Troy University’s eCampus, the answer is YES. Although you may never meet your classmates, online classes offer the opportunity to participate in class projects and actively communicate among students. Troy University’s eCampus programs are designed to support students both locally and around the globe, offering your future on your terms.

Troy University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award associate, bachelor’s, master’s and education specialist degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions regarding the accreditation status of the institution or if there is evidence that appears to support Troy University’s significant non-compliance with a requirement or standard.
eCampus brings you closer to earning a degree.

How is eCampus different from a traditional classroom setting?

Courses offered through Troy University’s eCampus have the same high academic standards as other Troy University courses. Students enrolled in distance-learning courses through eCampus must complete the same or comparable requirements as students in traditional classes. Because of the flexible scheduling, you must be responsible, self-motivated and a self-starter to complete required assignments on time.

What is Distance Learning?

Distance learning enables any student, regardless of age or location, to earn an accredited college education. Our distance-learning programs are growing rapidly due to the increased demand from working adult students for courses delivered on an “any time-any place” basis. For more information about a particular program, visit our Web site troy.edu and click on eCampus.

What are Distance-Learning courses like?

Several course delivery methods are used to reach students around the world. The courses are Internet-based and use e-mail, electronic bulletin boards, chat rooms, online mini-lectures and other Web-based interactive lessons.

Technical Requirements

Certain minimal hardware and software requirements are necessary to successfully participate in our eCampus classes. We recommend the following:

**E-mail**
An ISP (Internet Service Provider) that provides the ability to send and receive electronic mail.

Note: All University communications will be sent to your free student e-mail address (user@troy.edu).

**Internet Access**
A 56 Kbps modem is the minimum requirement, but a high-speed Internet connection (cable modem, DSL or LAN) is strongly recommended. Performance will be affected at lower connection speeds, especially for those classes that have audio and/or video components.

**Operating System**
- Microsoft® Windows® NT Workstation/2000/XP (PC)
- Mac OS V ers. 9.0 or higher (Mac)

Note: 128 Mb RAM is recommended.

**Plug-ins** (Free downloads)
Some courses may require you to play audio and/or video or read documents stored in Portable Document Format (PDF). The following free plug-ins will help you play or read course materials:
- Adobe Reader® 8.0
- Apple® QuickTime Player™
- Macromedia® Flash Player™
- Macromedia® Shockwave Player™
- RealPlayer® G-2 or higher
- Windows® Media 9™ or higher
- Microsoft® Word 2000/XP or higher.

**Processor**
- Pentium® II or higher running at 600 MHz or higher. (PC)
- PowerPC G3 running at 500 MHz or higher. (Mac)

**Virus Protection**
Anti-virus software is available to help protect your computer. You can find both a free version and a full commercial version by visiting www.mcafee.com (PC) or www.symantec.com (Mac).

**Web Browser**
- Netscape® Navigator 7.0 or higher
- Microsoft® Internet Explorer® 6.0 or higher
